

Mandrel Lubricant

PROMOL 679/40

PROMOL 679/40 is a water-soluble, silicone-free, non-corrosive liquid lubricant for the production of shaped hoses. It is used in the manufacture of mandrel built shaped rubber hoses to give an easy on and off sliding of the rubber hose onto the metal mandrel. Residues after vulcanisation can easily be washed off.

The product offers numerous advantages:

- applicable on most polymers
- ready to use
- does not leak down the mandrels
- good washability after curing
- biodegradable
- solvent and silicone free

AVAILABLE PACKAGING

DESCRIPTION	NET QUANTITY
IBCs	1.000 kg
Steel drums	200 kg
HDPE jugs	10/20 kg
